

The Life Cycle of a Chicken

**A mummy
chicken is called
a hen**

**A daddy chicken
is called a
rooster**

**Together they will make a baby
chicken.**

The baby chicken is inside the **egg**.
Can you see the eggs?
The **hen** sits on her eggs to look after
them and keep them warm.

How many eggs are there here?

Look! The egg is hatching! What's inside the egg?

Look at the **chicks** with their mum!
How many chicks can you see here?

The chicks have now grown up. It's now their turn to be mummies and daddies.

**How many eggs
can a hen lay a
day?**

Just 1

Can chickens fly?

**No! But
they can
jump!**
