

Learning at Home

Letter 3

24.4.2020

Hello Everyone,

The photos this week show more of the lovely learning that has happened at home. Your teachers are feeling **SO PROUD** of you. I am sure you are making the most of every day and learning all kinds of different things! I can see that you are learning from the website, learning from the grown ups you live with, learning indoors and outdoors and learning online as well. If I could see you, do you know what I'd say? "keep trying your best with your learning and playing and using Kelso's choices!" so well done everyone. Remember to stay healthy by washing your hands and getting lots of exercise and sleep too. Keep sending your teachers more photos and messages this week won't you?

~ from Mrs Mackay

Remember what we do if we get stuck with our learning? we **ask a grown up**. Now that you are learning at home you might need to wait until your grown up has finished what they are doing before you ask them, as they might be super busy!

This good idea this week comes from Rosie in the Nursery ~ if you go out for a walk, collect something interesting and use your imagination to turn it into a picture (after you have washed your hands of course!)
