

Let's Practise at Home

Drawing for Pleasure

Target: to observe closely what I intend to draw.

Practise activities:

1. Carefully talk about the image/object you would like to draw.
This can happen even before you find a pencil and paper.
2. Draw from real objects whenever possible. Observational drawing is drawing what you see so it could be a flower, a person, forks or spoons!
3. Think and talk about the shape, patterns, colours, shadows, perspective and contours. How do all these different aspects work together to form the image/object?
4. Talk about the spaces as well as the object.

Drawing for Pleasure

Target: to be a helpful critic.

Some key phrases and prompts:

- Good start.
- It doesn't look exactly like the ____ - YET!
- Shall we try and do a second draft to make it even better?
- Let's look at the shape of the ____ first.
- How about the pattern?
- Show me how you will ____
- Can you make it more like a ____
- You listened really well and it's now a lot better.
- Fantastic effort, you're nearly there.
- Try adding some of the ____
- You've made a lot of progress, great perseverance.
- Use the eyes of a scientist.

Be honest, specific and encouraging - step by step.
